EDUCATION

Mar. 2019 ~ Feb. 2024	Hanyang University 로봇융합전공	Ansan, Korea
Thesis: Development of an outdoor autonomous driving and lift system based on vision path estimation algorithm for shared mobility cleanup <i>Advisor: Minsung Kang</i> <i>B.S Major in Robotics & Convergence</i> GPA: 4.19 / 4.5		

RESEARCH INTERESTS

- Autonomous Driving
- Autonomous system development
- Sensor fusion

AWARDS AND HONORS

- Division of Smart Convergence Engineering Graduation Project Exhibition, Robotics Major Excellence A, Hanyang University ERICA, Korea (Dec. 2023)
- 2023 88 Robot Day SHARE Challenge Bronze Award, SHared AI-Robotics Education, Korea (Aug. 2023)
- Digital Innovation Sharing University Robotics Conference Second Prize, SHared AI-Robotics Education, Korea (Jan. 2023)
- 2022 International College Student Creative Car Contest Special Award, Organizing Committee of International College Student Creative Car Contest, Korea (Nov. 2022)
- 2020 Devicemart ICT Convergence Project Contest Encouragement Award, Devicemart, Korea (May. 2020)
- University Scholarship (half-tuition), Hanyang University ERICA, Korea (Sep. 2022)
- University Scholarship (half-tuition), Hanyang University ERICA, Korea (Mar. 2020)

PROJECTS

- CAPSTONE DESIGN Shared Mobility Cleanup Robot Holo bot, Hanyang University ERICA, Korea / Outdoor Navigation & Sensor Fusion (Sep. 2022 ~ Aug. 2023)
- 2022 SHARE Challenge 3D Virtual Tour Robot V9Dbot, SHared AI-Robotics Education, Korea / SLAM & Navigation (Aug. 2022 ~ Jan. 2023)
- 2022 International College Student Creative Car Contest Autonomous electric vehicle, Organizing Committee of International College Student Creative Car Contest, Korea / Autonomous System Responsible-ASR, ASMS (Autonomous System Master Switch) development (Apr. 2022 ~ Oct. 2022)
- Organization for education and Mobile Robot Project., Hanyang University ERICA (E-RUS), Korea / Educator & Planner (Jul. 2022 ~ Aug. 2022)
- Autonomous driving in online racing games TesLider, Creative Convergence Project1, Korea / Team Leader, Computer Vision (Mar. 2022 ~ Jun. 2022)
- 2022 Line Tracing Hackathon, Hanyang University ERICA (E-RUS & HY-MEC), Korea / Software Education (Jan. 2022 ~ May. 2022)
- Swerve Drive Project, CoRonA Lab, Korea / Swerve drive mechanism design & control (Jul. 2019 ~ Nov. 2019)

EXTRACURRICULAR ACTIVITIES

- Deputy team leader at Self-driving team, Korean University Student Automobile Research Forum, Korea (Sep. 2023 ~ Feb. 2024)
- Trainee at Self-driving, Hyundai Motor 2023 H-Mobility Class, Korea (Jul. 2023 ~ Sep. 2023)
- President at Division of Smart Convergence Engineering Major Association E-RUS, Korea (Mar. 2023 ~ Dec. 2023)
- Trainee at Self driving robot expert course - Computer Vision, Innovation center for engineering education, Korea (Jul. 2023 ~ Aug. 2023)
- Member at Self-driving team, Korean University Student Automobile Research Forum, Korea (Mar. 2023 ~ Aug. 2023)

SKILLS AND TECHNIQUES

- Robot Operating System 1 & 2
- Python/C/C++
- Computer Vision
- SOLIDWORKS
